MINERALS & VITAMIN FOR MORE MILK PRODUCTION / MINERALI & VITAMINI ZA VEĆU PROIZVODNJU MLJEKA

THIS IS NOT A MEDICINE, IT'S A COMPLEMENTARY FEED ADDITIVE. IT CAN NOT BE USED FOR TREATMENT.

USAGE PURPOSE: A mixture prepared economically on the purpose of covering vitamin and trace mineral substance needs of dairy (milking) cattle and ovine. It Has appetizing and productivity-increasing features. It Enhances milk quality and quantity by increasing feed conversion ratio of milking animals. It Helps with development of bone, teeth and cartilage tissue. It strengthens immune system and improves resistance against diseases. It helps with preventing foot problems with regular and continuous use. It prevents occurrence of birth paralysis. It prevents death calf births, births of weak, hairless and blind calves due to lack of trace mineral substance. It Has positive effects on reproduction (genital) system. **USAGE:** 10 Kg per 1 ton feed, 0.5 Kg per 1 feed bag, Beyond, it can be used by mixing 100g into daily feed of 1 cattle, 4 calves, 10 sheep, 20 lambs. **STORAGE:** Must be stored in cool, dry, dark and moisture-free places. **PRODUCT SAFETY INFORMATION:** No known side effect on cattle and ovine, however it must be avoided in overdose, which may lead to vitamin and trace mineral overloads on animals. Store it away from agricultural pesticides. Use opened packages in a short time. Except for target animals, its usage not recommended. **HUMIDITY:** 12% /

Za šta se koristi: Ovaj proizvod je ekonomično pripremljena mješavina koja ima za cilj zadovoljiti vitaminske i u trgovima, mineralne potrebe kod muznih goveda i ovaca. Proizvod pospješuje apetit i produktivne performanse. Poboľšava kvalitet i količinu mljeka tako što povećava stepen konverzije hrane muznih životinja. Potpomaze razvoj kostiju, zuba i hrskavičavog tkiva. Jača imuni sistem i poboľšava otpornost na bolesti. Redovnim korišćenjem ovog proizvoda, sprječava se razvijanje bolesti stopala. Sprječava pojavu paralize pri samom rođenju mlادنčeta. Sprječava uginuće pri rađanju teladi, sprječava rađanje slabih, bezdlakih i slijepih teladi usljed nedostatka mineralnih materija u trgovima. Posjeduje pozitivan efekat na reproduktivni (genitalni) sistem. **UPOTREBA:** 10 kg na 1 tonu hrane, 0,5 kg na 1 vreću hrane. Dodatno, može se pomiješati 100g proizvoda s dnevnom hranom za 1 govedo, 4 teladi, 10 ovaca, 20 janjadi. **SKLADIŠTENJE:** Čuvati na hladnom, suhom, tamnom i mjestu bez vlage. **INFORMACIJE O SIGURNOSTI PROIZVODA:** Nisu potvrđeni neželjeni efekti kod goveda i ovaca, ali je neophodno izbjegavati preveliko doziranje koje može prouzrokovati prekomjerno taloženje vitamina i minerala u organizmu životinja. Držati odvojeno od poljoprivrednih lijekova. Iskoristiti otvorena pakovanja u kratkom roku. Nije preporučljivo za druge, osim za navedene životinje.

IDENTIFIER NUMBER / IDENTIFIKACIJSKI BROJ	ACTIVE SUBSTANCE / AKTIVNA SUPSTANCA	ADDITIVE NAME / NAZIV DODATKA	LEVEL IN PREMIUM IN 10,000 GM / KOLIČINA U PREMIKSU NA 10,000 GM
Vitamins			
E 672	A vitamin	Retinol Acetate-Retinol	5,000,000 IU
E671	D3 vitamin	Cholecalciferol - Ergocalciferol	1,000,000 IU
SA700	E vitamin	Alpha Tocopherol Acetate - Alfa Tokoferol acetat	2,500 mg
Vitamins-Kao jedinjenje			
3331a	Vitamin B3	Nicotinamide (Niacin)-Nikotinamid (Niacin)	60,000 mg
Mikroelementi			
E2	Zinc (Zn)	Zinc Oxide - Zinkov oksid	50,000 mg
E2	Zinc (Zn)	Calcium Zinko-Kalcijum oksid	800 mg
E3	Cobalt (Co)	Cobalt Sulphate-Cobalt sulfat	100 mg
E4	Copper (Cu)	Copper Sulphate-Copper sulfat	10,000 mg
E5	Manganese (Mn)	Manganese Sulphate-Mangan sulfat	50,000 mg
E8	Cadmium (Cd)	Zinc Oxide-Cadmium oksid	300 mg
E8	Cadmium (Cd)	Sodium Selenite-Natrijev selenit	100 mg
Antioksidansi			
E200	BHA	Butylated Hydroxytoluene - Butiliran hidroksitoluen	1,000 mg
Nađni supstanci			
E200	Sodium Bicarbonate (NaHCO ₃)	Sodium Bicarbonate (NaHCO ₃)-Natrijev Hidrogen-bikarbonat	50,000 mg
	Kalium Citrat	Calcium Citrate (CaCO ₃)-Kalcijum Citraton (CaCO ₃)	exp
Ukupna količina teških metala (Ziv. i brov. avaj)			7.5 ppm
Analitički sastojci (N/mm)			
	Alumini		4.5 n/mm
	Sodium (Na)-Natrijum (Na)	Sodium Borate (Na ₂ B ₄ O ₇)-Natrijev Borat (Na ₂ B ₄ O ₇)	21 n/mm
	Calcium (Ca)-Kalcijum (Ca)	Dicalcium Phosphate - Dikalijum fosfat	22.5 n/mm
	Phosphorus (P)-Fosfor (P)	Dicalcium Phosphate - Dikalijum fosfat	7.5 n/mm
	Magnesium (Mg)-Magnezijum (Mg)	Magnesium Oxide - Magnezijum oksid	5.8 n/mm
